The Orgcommittee of the event has developed an internal safety scale, according to which, in the event of adverse weather conditions, the Orgcommittee will act in accordance with an agreed plan and require all participants to strictly comply with its requirements, namely:

Level 1 danger - wind speed of 7-9 metres per second - inflatable arches, lightweight structures (including kilometre markers), lightweight tents (awnings), promotional and photo areas are dismantled.

Once the 'Air raid alert in Kyiv' signal has been cancelled, the OrgCommittee representatives will decide on the spot whether the Event can continue. The decision of the OrgCommittee and the updated Event Programme will be announced to participants within 10 minutes of the cancellation of the 'Air raid alert in Kyiv' signal.

No results will be recorded during the 'Air raid alert' and the award ceremony will be cancelled.

30.2 Technical area

Technical area (tech zone), technical point (tech point) and technical assistance.

The tech zone is organized in the area of the start camp. Repair and replacement of bicycles or individual parts thereof is permitted. In the tech zone, participants may receive technical assistance from anyone. If a bicycle breaks down during the race, the rider has the right to repair the bicycle and/or replace bicycle parts independently or with the help of his team members. At the same time, the rider and his assistants must not interfere with other riders. Failure to comply with this condition may result in a warning and/or penalty. If repair is not possible, the lap must be completed on foot with the bicycle. Leaving the track is permitted in exceptional cases: if there is an obstacle that cannot be bypassed within the track (a blockage, damage to the track surface, etc.), provided that the detour does not shorten the course and does not give any advantage over other riders. After the manoeuvre, the rider must immediately return to the track.

Leading (following ‘on the wheel’)

Leading is permitted, but only if the rider is following another registered rider. Leading behind vehicles or unregistered riders (cyclists) is prohibited.

Right of way

Riders travelling on their bicycles have priority over riders who have dismounted. Riders pushing or carrying their bicycles must travel on the least trafficable part of the track when being overtaken. Riders pushing or carrying their bicycles may overtake cyclists who are riding if they do not obstruct traffic.

Positional battle

When two riders are fighting for position on the track, the leader is not obliged to give way to the overtaking rider (except for 'circular' overtaking). However, sudden changes in trajectory when overtaking and any contact (with the body or parts of the bicycle) with the aim of obstructing movement are prohibited. The overtaking rider, in turn, must ensure the safety of their manoeuvre by announcing it loudly. Participants who have been lapped must give way to the leading riders when they are overtaking.

Withdrew from the race

If a participant is unable to continue the race and decides to withdraw, they must inform the judge at the finish line of their decision.
